DPU6555Heh

Reversible Vibratory Plates

Unbeatable on any subsurface

Thanks to its enormous compaction force combined with a quick forward and return travel, the DPU 6555 offers an extremely high level of productivity. It is a very versatile machine for all construction sites where extreme demands are placed on the performance efficiency. In addition, it offers excellent characteristics in terms of service life and operating comfort. Optimal application areas are the compaction of frost coverings and bearing layers in street, path and parking lot construction as well as backfilling buildings. Thanks to a frequency of 69 Hz, the DPU 6555 is universally applicable and even reliably compacts heavy interlocking paving stones. The model version DPU 6555Heh is equipped with Compatec, the compaction control by Wacker Neuson. This is also available as a retrofit kit for all DPU 6555He models starting with the year 2011.

- The innovative guide handle provides for very low hand-arm vibrations and optimizes the user-friendliness.
- An operator present system prevents the operator from being trapped between the unit and an object when working backward.
- Extensive comfort functions, such as low oil shutdown, self-adjusting V-belts, maintenance-free alternator.
- A large dimensioned diesel engine offers high power reserves and ensures for a high level of efficiency and long service life.
- Compatec: Easy to read display of the relative compaction progress. Warning for overload and overcompaction. Brightness adjustment of the lights to the ambient light. Extremely robust and reliable.

all it takes!

Lowest hand-arm vibration

The totally redesigned Wacker Neuson guide handle provides a hand-arm vibration of under $2,5 \text{ m/s}^2$.

This allows for an all-day continuous operation without impairment and risk to the user.

All documentation requirements are omitted if an operator only works with equipment that has acceleration values below 2.5 m/s^2 .

Compatec - Compaction Control

The model version DPU 6555Hec is equipped with Compatec, Wacker Neuson's compaction control.

If the number of lights no longer increases, then the maximum soil compaction possible with this unit has been achieved.

Retro-Fitting for DPU 6555He are also available.

NEUSON**
all it takes!

Intuitive guide handle design

Change the direction of travel and control speed simply by moving the handle forwards and backwards.

Available with crank handle or electric starter.

The electric starter model is conveniently started with an ignition key. A loud signal tone prevents inadvertent draining of the battery.

Pinpoint compaction

Compacec compaction control shows you when the soil is adequately compacted. Over compaction and overload can be avoided.

Easy to transport

On job sites as well as on transportation vehicles: thoughtful details make the transport of our Vibratory Plates comfortable and easy.

**WACKER
NEUSON**
all it takes!

Low hand-arm vibration

Especially in continuous use low hand-arm vibrations (HAV) are essential. Our reversible vibratory plates can be used without any time limit and mostly even without documentation requirements.

User comfort installed

For particular user friendliness all Wacker Neuson models are easy and simple to use.

Technical specifications

	DPU 6555Heh	DPU 6555Hech
Operating data		
Operating weight lb	1,091	1,096
Centrifugal force lbf	14,612	14,612
Base plate size (WxL) in	21.7 x 35	21.7 x 35
Base plate thickness in	0.5	0.5
Height (ground clearance) in	33.6	33.6
Operating width (with extension plates) in	28	28
Frequency Hz	69	69
Hand-arm vibrations ft/s ²	4.3	4.3
Advance travel max. (dependent on soil and environmental influences) ft/min	91.8	91.8
Surface capacity max. (dependent on soil and environmental influences) ft ² /h	12,917	12,917
Transport height in	59.9	59.9
Transport length in	41.7	41.7
Transport width in	30.7	30.7
Shipping weight lb	1,105	1,108
Engine / Motor		
Engine / Motor type	Air-cooled, single-cylinder, four-cycle diesel engine	Air-cooled, single-cylinder, four-cycle diesel engine
Engine / Motor manufacturer	Hatz	Hatz
