

Product information VG-44

Soft Touch®, welding glove in cow grain sewn with Kevlar® thread.

Field of application:

Soft Touch® unlined welding glove made in cow grain in inner palm and cow split in the back. The glove is sewn with Kevlar® thread with a reinforced thumb that gives the glove longer life. Cow grain is a very flexible and durable material.

The glove is well suited for all kinds of welding.

Sizes: 7-11.

Material information:

The gloves are made in cow grain with a Kevlar® thread.

Technical fact: Simple Design (Category 1)

These gloves are to be used when there is a minimal risk for the user. General requirements for safety gloves are fixed by the CE-standard. The requirements concern purpose, construction, product information, size, chrome contents (max 2 mg Chromium VI per kg) and PH-value, which must be in the range of 3,5 -9,5.
